**Protest Regarding the Selection of Speakers for the United Nations Security Council Session on the Protests of the Iranian People and the Massacre of Civilians**

Dear Madam President,  
Dear Mr. Secretary-General,

The Association of Monarchist Physicians of Iran, speaking on behalf of a segment of Iranian civil society, wishes to express its profound concern regarding the manner in which speakers were selected for the recent United Nations Security Council session addressing the protests of the Iranian people and the human rights situation in Iran.

During this session, Ms. Masih Alinejad and Mr. Ahmad Batebi were invited to speak, while millions of Iranian citizens—particularly young people—have, in the course of widespread and peaceful protests against the Islamic Republic, lost their lives as a result of violent repression and an unprecedented massacre of demonstrators in our homeland.

With the utmost respect, we raise the question of which legal, representative, and impartial criteria were applied in the selection of these individuals, and why the opportunity was not provided to hear the voice of Prince Reza Pahlavi, who enjoys broad national support both inside and outside Iran. He is recognized by a significant portion of the Iranian people as a legitimate representative of the nation and as an advocate for a peaceful transition to democracy.

The exclusion of this voice may be perceived as a disregard for the true will of the Iranian people and for the depth of the ongoing humanitarian catastrophe in the country. The

selection of speakers at such sessions plays a crucial role in conveying the truth, safeguarding impartiality, and ensuring the effective defense of human rights.

The Association of Monarchist Physicians of Iran, while fully respecting the structures and procedures of the United Nations, respectfully calls for clarification on this matter and for the establishment of equal opportunities to present the views of the legitimate representative of the Iranian people in international forums.

Yours sincerely,

**Iranian Monarchist Medical Association**
